Waupaca Community Chest, Inc.

December 2023

Greetings!

As we approach the holiday season the Waupaca Community Chest asks that you consider adding your support to our annual fund drive. The Waupaca Community Chest began in 1958 and evolved into the Waupaca Area United Way before changing back to the Waupaca Community Chest in 2018. The reason for the change was simple: by once again becoming an independent fundraising organization we ensure that the funds raised in our area stay in our area, helping our local groups and organizations provide valuable services to our community.

In 2023, the funds we raised were distributed to community organizations. This was only possible with the generous donations from area businesses and individuals like you. Our goal once again is to provide the resources our community groups need to continue their service to the citizens of the Waupaca Area. All donations raised are distributed through an all-volunteer Board of Directors to non-profit organizations. In 2024, we want to be able to fully fund all the requests we receive from the organizations in our community. And we are asking for your help to achieve this goal.

Please consider making a tax-deductible donation today. You can do that with the return envelope provided or through our website at: www.waupacacommunitychest.com Either way, your donation will be distributed locally and benefit everyone in our community.

If you are an organization looking for funds, an application can be found on our webpage. Just click on the area that says, "Request Funds." Applications are due January 31, 2024. If you received funding last year, we are also requesting your completion of the Request for Funding form, along with the completed Recipient Outcome Report. Our Volunteer Allocation Committee will meet shortly after that date to review and decide on programs to be funded.

We greatly appreciate you helping us reach our goal.

Sincerely,

The Waupaca Community Chest Board of Directors
